Informacja o zużytym sprzęcie elektrycznym i elektronicznym

Głównym celem regulacji europejskich oraz krajowych jest ograniczenie ilości odpadów powstałych ze zużytego sprzętu elektrycznego i elektronicznego, zapewnienie odpowiedniego poziomu jego zbierania, odzysku i recyklingu oraz zwiększenie świadomości społecznej o jego szkodliwości dla środowiska naturalnego, na każdym etapie użytkowania sprzętu elektrycznego i elektronicznego. W związku z powyższym należy wskazać, iż gospodarstwa domowe spełniają kluczową rolę w przyczynianiu się do ponownego użycia i odzysku, w tym recyklingu zużytego sprzętu. Użytkownik sprzętu przeznaczonego dla gospodarstw domowych jest zobowiązany po jego zużyciu do oddania zbierającemu zużyty sprzęt elektryczny i elektroniczny. Należy jednak pamiętać, aby produkty należące do grupy sprzętu elektrycznego lub elektronicznego utylizowane były w uprawnionych do tego punktach zbiórki.

Information about used electrical and electronic equipment

The main goal of European and national law regulations is to reduce the amount of waste produced from used electrical and electronic equipment, to ensure an appropriate level of collection, recovery and recycling of used equipment, and to increase public awareness of its harmfulness to the environment, at each stage of use of electrical and electronic equipment. Therefore, it should be pointed out that households play a key role in contributing to reuse and recovery, including recycling of used equipment. The user of electrical and electronic equipment – intended for households – is obliged to return it to authorized collector after its use. However, it should be remembered that products classified as electrical or electronic equipment should be disposed of at authorized collection points.
